BEWLEYVILLE.

Ernestine Drury is visiting in Irvington. Miss Macy, of Garfield, has returned to her home. Miss Lena Drury left for Brandenburg Wednesday.

The prevalence of colds almost amounts to an epidemic.

Some of the girls hereabouts are developing their social qualities.

The B. V. R. C. has some business on hands that needs immediate action, and all the members are requested to be present at the meeting of Feb. 26th.

The Rev. Donald M. Grant, pastor of the Presbyterian church at Gaston, will deliver a lecture at Bewleyville in the Methodist church, Saturday, Mar. 6th, at 7 o'clock p. m. He comes at the invitation of the Epworth League and everybody is invited to attend.

Our Sunday School Superintendent made a new department to-day appointing Chas. Drury Assistant Superintendent and also assigning him one Sunday in each month in addition to officiating in his absence. This is a good move and we hope that new life and energy may be brought in to the school by this infusion of new blood.

Our Superintendent took occasion a few Sundays ago to laud his corps of teachers and all ears, but said little or nothing about the organist. Now, I want to say, she is always in time, she always has a song ready, plays with life and spirit, and never misses a note or strikes the wrong one. Who can beat it? A visitor remarked recently that our school seemed like a large well regulated family in which each member knew his duty and did it. Our Sunday school never thinks of closing for winter, but keeps the even tenor of her way throughout the year.

MANY THINK!

when the Creator said to woman, "In sorrow shalt thou bring forth children," that a curse was pronounced against the human race, but the joy felt by every Mother when she first presses to her heart her babe, proves the contrary. Danger and suffering lurk in the pathway of the Expectant Mother, and should be avoided, that she may reach the hour when the hope of her heart is to be realized, in full vigor and strength.

MOTHER'S FRIEND

so relaxes the system and assists Nature, that the necessary change takes place without Nausea, Headache, Nervous or Gloomy Foreboding of danger, and the trying hour is robbed of its pain and suffering, as so many happy mothers have experienced. Nothing but "Mother's Friend" does this. Don't be deceived or persuaded to use anything else.

"Mother's Friend" is the greatest remedy ever put on the market, and all our customers praise it highly. W. H. Rasm & Co., Whitehall, Tex.

I have given Chamberlain's Cough Remedy a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract yield very readily to this medicine. I can conscientiously recommend it for croup and colds in children.—Geo. E. Wolf, Clerk of the Circuit Court, Fernandina, Fla. Sold by A. R. Fisher, Cloverport, and R. A. Shellman, Stephensport.

Speaking of Dreams. For sometime the Louisville Post has been running a dream column, and many people have read it. The superstitious read it because they believe it, and the educated read it because they desire to see how silly the other kind are.

However, Mr. James Moorman, of this city, tells of a double dream which once occurred to himself and his partner, and which proved both true and profitable. This mental illusion is not entered in the Post's column but the dream editor may send us the prize if he so desires. The following is the dream in Mr. Moorman's language:

"In 1850 I was mining in California and had a partner named Isaac Cooper, from Missouri. One day on our way to camp we passed a tree that had been cut down. We of course only gave the fallen oak a passing thought and went home and went to bed. Next morning when we awoke I raised up on my elbow and said: 'Ike, I dreamt there was some gold under the stump of that tree we passed last night.' 'And I had the same d— I dream,' said Ike.

"Well, we got up and hustled breakfast mighty quick. Ike was as usual so usually, but that morning he fried the bacon in it. So we went down and dug up the stump and took out exactly four ounces of gold, which brought us just even \$64. There was probably more further down but we didn't have the tools to prospect and it's there yet, maybe."

A Silver Democrat.

KIRK KY., EDITOR BRECKENRIDGE NEWS.—I noticed your correspondent from Ephesus, who signs his name M. W. T., seems to be from his talk a gold standard man. Now, Mr. M. W. T., I just want to say in regard to a statement you made in speaking about a forty-cent silver dollar, that there was a time when silver was worth \$1.29 per ounce, and \$1.03 per dollar, and that the cowardly act of 1873 that dropped silver from our list of redemption money and thus killing the demand for silver, was the cause of silver falling in price, and that Mr. McKinley says in his letter of acceptance that "it is the intention of the Democratic party to pass a law to coin silver dollars of the same weight and fineness of our present silver dollars and make them a full legal tender 100 cent dollar." And do you suppose that any man would be fool enough to sell silver at forty cents an ounce when he could coin it into that kind of a dollar?

And again, you say that "money is not a thing of legislation." You seem very ignorant in regard to that matter. You ought to look at our constitution, and you will see that it gives Congress the right to coin money and name the value thereof, and if that is not legislation, then what is it?

From your talk, I presume you are a Republican, but just what kind of a Republican you are, I am at a loss to know. In 1888 when the Republican platform had this money plank, were you a Republican? The Republican party is in favor of both gold and silver as redemption money and condemns the Democratic administration for demonitizing silver. And, again in 1892 when the Republican party was for the free coinage of silver and gold, were you a Republican then? And in 1896, when it was for the single gold standard you are still a Republican, I suppose. And now, my dear sir, if you ever was a Republican, what kind of a Republican are you. BIRKBEATH.

Fatality of Croup.

Statistics show that thousands of infants and children die yearly of membranous croup. We do not exaggerate when we state that every one of these innocents could have been saved had Foley's Honey and Tar been given them in time. Can you afford to be without it in your household?—A. R. Fisher, Cloverport; R. A. Shellman, Stephensport; Gordon & Haynes, Pateville; E. A. Witt, Hardinsburg.
