

Three Leading Scientists

Proclaim the Superior Value of

Dr. Price's Baking Powder.

Scientists are devoting closer attention to food products. Recent examinations of baking powders by Prof. Long, Dr. Haines, and Prof. Prescott, were made to determine which powder was the purest, highest in leavening strength, most efficient in service, and most economical in cost.

"Chicago, March 28th, 1894.

We have purchased in the open market cans of Dr. Price's Cream Baking Powder and also of the other leading brands of baking powders, and have submitted them to chemical analysis. We find that Dr. Price's Cream Baking Powder is a pure cream of tartar powder, that is has a considerably greater leavening strength than any of the other baking powders we have ever tested.

GOOD ROADS.

Some Figures Showing That They Are a Great Saving to the Farmers.

Read What a Prominent Citizen of New Jersey Has to Say About Public Highways.

THINK OF THE DIFFERENCE

That farmers should be relieved of a portion of the burden of maintaining the public roads is a reasonable demand which is heartily concurred in by the best citizens of both cities and towns.

"Prior to 1893 I lived two miles from a Macadamized road leading to Camden. My tenant hauled manure from Philadelphia during the fall and winter, going down with two horses and bringing out a load with them; when he got within two miles of home he had to double his team in order to bring the two-horse load the balance of the distance to my farm.

"It is this waste of time which makes it important to farmers that we should have improved highways. I know it is necessary to educate the people up to the idea of good stone roads and that it requires a great deal of education in some cases.

This excellent troupe will give one of their excellent performances at the following times and places: Concordia, Ky., Wednesday, September 5.

The Louisville Post has published a score or more of letters from prominent Democrats throughout the state, written in response to an inquiry as to the strength of Gen. Hardin and Mr. Clay for Governor. Mr. Hardin out-classes Clay 4 to 5 to one. He certainly is a decided favorite in Hancock, a county from which no opinion was given.

The Local Newspaper.

There is hardly any way in which a person can do so much for his own locality, with so little cost and at the same time with so much benefit to himself and his family, as by giving a hearty support to his local paper.

When a man tells you that the big city weekly is worth more than your home paper, ask him how much the big city weekly has ever done for your locality, if it has ever spoken a good word for it; if it has ever mentioned what he and you were doing to improve the condition of yourself and your community; if it has ever noticed him or his friends when sick or dying—in short, if all his dealings with the metropolitan weekly have not been entirely one sided, in which his dollar only was recognized by the other party while he and all his individual interests were completely ignored.—Pomona (Cal.) Progress.

It Was Time to Pray.

A drummer—and a drummer, you know, never lies—told me yesterday of how a preacher tested the effect of the hard times upon his congregation. At the conclusion of one of his sermons, he said: "Let everybody in the house who is paying their debts stand up."

Montgomery and Lewis.

Hon. A. B. Montgomery and Hon. John W. Lewis met in joint debate at Hodgenville last Monday. Mr. Montgomery handled the Democratic flag with telling effect, and at the conclusion of his speech it was moving in eloquence all over the audience.

It seems to me that many people take a wrong view of the present financial situation. I understand from good authority that there is plenty of money in the banks and that money is seeking for profitable investments and every dollar of our currency is equal in purchasing power in the United States.

CLUETT'S GANOKA. SPACE 1 1/2 IN. HEIGHT IN FRONT 2 IN.

To our thinking the best way to get things done right is to find a good doer and stick to him. A dealer gets to know your wants often better than yourself, and a wise shirtman keeps the same shirts year after year—except for the few butterfly styles that come and go for a day.

That is true to some extent in Gent's Furnishings, Stationery—the other things that we sell; but it is eminently true of shirts, because if they are not right, they are so very wrong.

REV. Z. C. TAYLOR. A WALL OF PROTECTION Against Disease in Far-off Brazil.

Rev. Z. C. Taylor, Missionary of the Southern Baptist Convention to Brazil, writes of GERMETTER: "I consider it a wall of protection against disease, and a sure guarantee of health and happiness. Since I first took GERMETTER three years ago my health has been almost perfect. I work incessantly, and can expose myself as much as a native."

Rev. Mr. Taylor's location is at Bahia, almost under the equator, on a malarial coast. It is the home of Malaria and all those malignant forms of disease that are born of it. Here, as in all other places of like character, GERMETTER has signally triumphed. It is the great conqueror of malaria in all its forms and in all places. Will break any fever in less time than Quinine or Antipyrine and leave none of their unpleasant effects, such as nervousness, nausea and prostration. And then it is so good to take that even little children soon learn to cry for it.
