BRECKENRIDGE NEWS.

WEDNESDAY, AUGUST 8, 1894.

LODIBURG.

As items are scarce, I will tell you a few facts worth knowing: Spinach is a Persian plant. Filberts came from Greece. Quinces came from Corinth. The turnip came from Persia. The peach came from Persia. The nasturtium came from Peru. Melons were found originally in Asia. Sage is a native of the South of Europe. Sweet-majorum is a native of Portugal. The bean is said to be a native of Egypt. Damosons originally came from Damascus.

The pea is a native of the South of Europe. Coriander seed came originally from the East. The goosberry is indigenous to Great Britain. Ginger is a native of the East and West Indies. Apricots are indigenous to the Plains of Armenia. The cucumber was originally a tropical vegetable. Pears were brought from the East by the Romans. The walnut is a native of Persia, Caucasus and China. Capers originally grew wild in Greece and Northern Africa.

Garlic came from Sicily and the shores of the Mediterranean. The clove is a native of the Malacca Island, as also is the nutmeg. Cherries were known in Asia as far back as the seventeenth century. The tomato is a native of South America, and takes its name from a Portuguese word.

Parsley is said to have come from Egypt, and mythology tells us it was used to adorn the head of Hercules. The cantaloupe is a native of America, and so named from a place near Rome, where it was cultivated in Europe.

Apples were originally brought from the East by the Romans. The crab apple is indigenous to Great Britain. The onion was an object of worship, with the Egyptians two thousand years before the Christian era. It first came from India.

The success of Mrs. Annie M. Beam, of McKeesport, Pennsylvania, in the treatment of diarrhoea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnstown, Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of them took the diarrhoea very badly. I got some of Chamberlain's Colic, Cholera and Diarrhoea Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think it cannot be excelled and cheerfully recommend it." 25 and 50 cent bottles for sale by A. R. Fisher, Cloverport, Ky., and Kincheloe, Meador & Co., Hardinsburg, Ky.

The fruit crop will be very light here. What few apples and grapes there is, are of an inferior quality. Most of the apples will drop off before ripening.

Mr. J. C. Tinius has rented the Minor farm at Addison for the ensuing year and Mr. Chas. Tinius, jr., the Miller farm at this place. Whether if the next change—it will be a wedding I think.

A large concourse of people from here and a distance attended the burying of Judge Joseph Holt at the Holt graveyard Sunday morning. Deceased died in Washington city Aug. 1st in the 87th year of his life.

The picnic at this place Saturday promises to be the best of the season. Messrs. Heston, Tinius and Smith, the managers, have spared no pains to make it first class in every respect. Good music, plenty to eat and fine speaking will be the order of the day.

Home and Abroad.

It is the duty of everyone, whether at home or traveling for pleasure or business, to equip himself with the remedy which will keep up strength and prevent illness, and cure such ills as are liable to come upon all in every day life. For instance, Hood's Sarsaparilla is a general tonic, and to keep the blood pure and less liable to absorb the germs of disease, will be well nigh invaluable. Change of drinking water often causes serious trouble, especially if one has been used to spring water in the country. From a few drops to a teaspoonful of Hood's Sarsaparilla in a tumbler of water will prevent the water having any injurious effect.

Hood's Vegetable Pills, as a cathartic, cause no discomfort, no disturbance, no loss of sleep, but assist the digestive organs, so that satisfactory results are effected in a natural and regular manner.

Mr. Chintz Royalty and family will move here soon. Mr. Royalty will teach our school with Miss Rose Oelze as an assistant. We welcome Mr. Royalty in our midst.

That man Blake, that the Persimmon Flat correspondent said had lost his mustache, has come back here and can be heard any time, day or night, blowing his horn—whoot—whoot—whoot—here traveler—whoot—whoot he is Blake, the champion fox hunter of this community.

Mr. Thomas Batte, editor of the Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence." 25 and 50 cent bottles for sale by A. R. Fisher, Cloverport, Ky., and Kincheloe, Meador & Co., Hardinsburg, Ky.

COLUMBIA BICYCLES

CAN BE RELIED UPON.

When you start out on a Columbia, you come home on it.

The fact that it is impossible to ascertain the quality of a bicycle by a casual examination should be a sufficient reason for buying a wheel with a reputation.

There is no wheel that has been before the public so long, none that stands or ever stood so high, none so well guaranteed, none whose guarantee is so substantial and so liberally interpreted, none so safe to buy as a Columbia.

With Columbia listed at \$125, few riders will be so unwise as to invest in lower grade bicycles.
