WHAT the Democrats of Breckenridge county need is a good, old-fashioned revival. They want to get near enough together to shake hands all around and send up a shout for Democracy.

Murray will carry Green, Taylor, Marion, Washington, LaRue, Breckenridge and Grayson counties by varying majorities."

COUNTRY people don't know anything about hard times. Strikes and labor riots don't bother them. They go right along plowing their corn, hoeing their tobacco and cutting their wheat and have no thought of the hard times.

THE merchants of Moolleyville are the most depressed set of fellows you ever saw. They say the failure of the fruit crop up there has knocked the bottom out of business completely.

I should have loved to serve you, my fellow Democrats, but I am no longer in the contest. Thanking my friends for their support and happy that I am free from any entanglements or roughness with my opponents in the race, I tip my hat to them and in the ring of the ring say, "And may the best man win."

THEY LOVE HIM.

Hon David R. Murray Has Friends in Upper Meade and Hardin Counties.

Montgomery Could Raise No Stir at Stithton, His Old Strong Hold, on the Fourth.

WANT MURRAY TO COME.

MULDRAUGH, MEADE COUNTY, KY., July 5, 1894.—TO THE EDITOR OF THE BRECKENRIDGE NEWS.—Many of the voters of Muldraugh and vicinity are for Hon. David R. Murray for Congress. Many of the good citizens of this part of the country moved here during the past few years from Breckenridge county and have known David R. Murray to love him, and that we do and are for him for Congress.

Mr. Montgomery delivered a short address on the Fourth at Stithton, and although the crowd which listened to him could be heard expressions favorable to Mr. Murray. This is extremely gratifying, because of the fact that Stithton and vicinity has always been considered Mr. Montgomery's home, rather as his strong hold.

The people up here are very anxious to hear Mr. Murray speak. His friends have worked hard for him and his name has almost become a household word. But the people, naturally, want to see him and to hear him. If he would make an appointment to speak in this part of the district in the immediate future, he would only be doing himself justice and would undoubtedly carry this part of the district. His friends want him to come very much, for they anticipate what sort of impression he would make.

One of Mr. Montgomery's staunchest friends in the past, said to-day that he had always supported him, but that this time he would not vote for him. This man is one of the wealthiest and most influential farmers in this section. He refused, however, to state why he was against his old friend in the present campaign. This feeling prevails to the extent that if Mr. Murray would come here and let the people get acquainted with him he could gather into the fold all these votes. Of course Mr. Montgomery has friends here who will remain loyal to him, but the result could be announced in advance if Mr. Murray would let the people in this part of the district know him.

He will address a large crowd at Paroquet Springs that day and another large crowd at Mt. Washington that night.

Caught an Accused Horse Thief. Deputy Sheriff Thos. Wroe arrested a young man named Peter Pleasant, in this city Monday evening, who was accused of stealing a horse in Hancock county, near Hawesville, Sunday.

Monday morning Silas Warner, a farmer of Hancock county came to this city and told Wroe to be on the lookout for the thief. The horse had been stolen near Hawesville and ridden up into Sterrett's Bottom and there turned loose, but Pleasant had been seen walking towards this city and carrying the saddle, which had also been stolen.

In the afternoon Sheriff Wroe found the man down at the Breckenridge depot trying to sell the saddle. The saddle was hid out in the bushes, but the young man brought it out and contracted to sell it to the sheriff. They came up town to get the money, and then Pleasant was put under arrest. He was taken to Hawesville Monday night and lodged in jail. As the grand jury is now in session down there, short work will no doubt be made of his case.

Peter Pleasant was raised over about Tobinsport and is not a stranger in this city. He says that he has recently been mining coal at the Falcon mines.

Snake On Her Back. While Mrs. Jake May, of this city, was gathering berries on the Burnett farm, a few miles below the city, one day last week an incident occurred that would have frightened most ladies out of one "jimmy fit" into five hundred. While Mrs. May was sitting down getting berries near the ground she felt something on her back. She reached around with her hand and discovered that the something was between her outer dress and under garments. She then raised up and a large copperhead snake fell out of her clothing to the ground. Instead of screaming and fainting, Mrs. May went on about her berry picking, and the party gathered twenty-six gallons of berries that afternoon.

Thrown From His Buggy. Mr. Chas. Tinius made a narrow escape with his life last Thursday evening, and as it is severely hurt. He was driving along the river road above this city, going home, when a freight train came along. The railroad and the county road are close together, and his horse became frightened at the train, and began to run away. Mr. Tinius was thrown from his buggy, and struck the ground with such force that he was rendered unconscious for more than an hour. Some women, who were gathering berries nearby carried him to a shade and tried to resuscitate him by bathing his head with water. Help finally arrived and he was conveyed to his home where his wounds were dressed. His head and face was considerably cut and bruised, and he was, also bruised about the body and legs, but happily he was not seriously hurt and is now almost well. The horse demolished the buggy.

THE GREAT STRIKE. The largest and most destructive strike, both to property and life, is now in progress almost all over the United States, and it is still spreading. The Pullman Palace Car Company, of Pullman, Ill., a suburb of Chicago, reduced wages in some departments and shut down in others. For this reason the American Railway Union has boycotted the Pullman Cars and is prosecuting a strike on railroads using them. The seat of the greatest trouble is at Chicago. In that city last Friday the strikers joined by many idle toughs, became riotous and the authorities were powerless to restrain them. As night came the crowd grew larger. They assembled near the freight depots and in the switch yards of South Chicago and with the falling of the shades of night the destruction of property began. Freight trains were captured, and the torch was applied. Whole strings of cars, acres of freight sheds and depots and much valuable freight was burned. Whole squares were on fire at once and locomotives were captured and turned loose through the burning mass scattering fire brands in every direction. Firemen who attempted to extinguish the flames were stoned and clubbed from their posts of duty, policemen were defiled and tens of thousands of desperate men ran riot. Railroad tracks were torn up and made useless. The terrible rioting continued through Saturday and Sunday, in a somewhat abated state, though up to Monday several million dollars worth of property had been destroyed and more than a dozen persons had been killed. The state troops were called out and President Cleveland sent United States troops to prevent any interference with interstate commerce and the destruction or detention of the United States mails. On Sunday a crowd of about 5,000 strikers gathered at Hammond, Ind., a suburb of Chicago, blocked the railroad tracks and prevented the passage of trains. A company of 35 United States soldiers were dispatched to the scene of trouble and a conflict ensued. When the mob saw the soldiers they became infuriated. It rushed upon them and was received by a volley from Springfield rifles. A second volley checked the mob and when men began to fall among them they began to disperse. Two of the rioters were killed and several others were wounded. How many or how badly is not known, as their friends carried them off as they fell. At midnight Saturday night President Cleveland issued a proclamation which practically put Chicago under military law. He advised all the strikers to stay peacefully at home if they did not want to get hurt, and warned all persons engaged in, or in any way connected with such unlawful obstructions, combinations and assemblages to disperse and retire peacefully to their respective abodes on or before 12 o'clock noon, on the ninth day of July.
