ALMOST ANOTHER

A Big Fire Was Barely Averted in the Thickest Part of Cloverport Last Friday.

The Staple Pulls Out of a Ceiling and Lets a Large Hanging Lamp Come Down.

DESTRUCTION WILL COME.

The citizens of Cloverport were startled by another alarm of fire last Friday evening, but fortunately the flames were extinguished before serious damage was done. About 6 o'clock p. m. when the lamps were being lighted, a great commotion was heard in Arthur Harris' barber shop, on Wall street, between Elm and Poplar. Men came rushing out of the shop half shaved, with lather all over their faces followed by negro barbers, yelling and brandishing keen-edged razors over their heads. The citizens in the immediate neighborhood were startled, but not until they discovered clouds of smoke issuing from the doors of the shop, did they learn that it was fire instead of a fight that was causing the commotion. When the property holders saw this their screams for help were actually pitiful, and men rushed in and extinguished the flames before headway could be gained. The fire was caused by the staple supporting a large hanging lamp, pulling out of the ceiling and letting the lamp come down with a crash. The oil was soon afire and a few moments time was all that was necessary to have wiped out the business portion of Cloverport. In this square is where the greater part of the business of Cloverport is centered, and with only an occasional exception the largest business houses and wealthiest stocks are situated here. The square is perfectly solid with large two and three-story buildings. The citizens of Cloverport have long realized the fact that if fire ever gets started in this square that the wealth and beauty of the city will be swept away, and it was thinking that the time had come that caused the pitiful screams for help last Friday evening. But fortunately, the dreaded day of destruction was postponed a little while longer, though it is as sure to come, sooner or later, as it is that the day of judgement is in the future. GUSTON. IN THE POND. The Body of a Brandenburg Lady Was Found Early Yesterday Morning. Mrs. Wm. Bowling Starts to Visit Her Daughter's Grave and Finds Her Own. HER MIND WAS DERANGED.

Too late too appear in our regular Brandenburg column, we received the startling news of the death of Mrs. Wm. Bowling at Brandenburg, early yesterday morning. Our correspondent describes the circumstance in substance as follows: The community of Brandenburg was shocked early this morning to hear that the body of Mrs. Wm. Bowling had been found by her son, Mr. John Bowling, in the pond near the Brandenburg cemetery. As has been mentioned in the Brandenburg column of the News, she had been suffering from nervous prostration, but had improved and was up and going about. It was palpable to all, since the death of her daughter, Mrs. Price, last November, she has been despondent and unhappy. About 3 o'clock this morning, Tuesday March 13, she was missed from her home, and a search was immediately instituted for her. She was found in the pond, as stated above, and was still alive, though she died soon afterward. There is no doubt that she had started to her daughter's grave, had wandered into the pond and was chilled to death by the cold water. She had taken quilts with her and probably intended to make her bed by the side of the grave that contained the form that was dearest to her. These are the facts as received at a very early hour, and while they may not be minute in every particular, I suppose they are authentic. The A. P. A. in Cloverport. It is reported on good authority that an agent of the A. P. A. was working in Cloverport last week in the interest of that order, trying to effect an organization at this place. It is also said that several Cloverport citizens are already members of that organization and that others went to Louisville the latter part of last week for the purpose of joining. A News representative was given the names of all the alleged Cloverport members, and they are all, without a single exception, Republicans. It should be added, however, that they do not compose the most intelligent portion of the Republican party of Cloverport and vicinity. In Memory. Mrs. Tillie Connor, wife of Mr. Robert F. Connor, died of brain fever at Rome, Ind., March 8th, 1894, Thursday morning at 6 o'clock, aged 26 years. After a short and painful illness death has called from earth to view Eternitie's vast realm one of whose likeness the poet has said: "None knew thee, but to love thee, None named thee, but to praise." Bright, cheerful in disposition; amiable, beloved by all who knew her, she moved a glittering star in the firmament of parity. At the close of the services, held by Rev. Henry Groves, all took a last look at the sweet calm face, which would soon be hid in the cold grave, to await the resurrection morn, but the happy spirit has winged its way to God. She will be missed in the community where she has lived so long, missed in the church and more than in any other place will she be missed in her own home. Thus truly can we say "Blessed are the dead, who die in the Lord, they rest from their labor and their works do follow" But so dearly we have loved her. "Yes Oh! yes we loved her. But Jesus loved her more. Yes Oh! yes we have parted, But not forever more." Nor Tillie is an angel now. LILLIE M. CONNOR. Rome, Ind. March 11th, 1894. Col. I. B. Nail, of the Farmers Home Journal, is being favorably mentioned as a candidate for State Commissioner of Agriculture.
