A bill has passed the Legislature which abolishes the land office.

The evidence continues to pile up that the Maine was destroyed by an explosion from the outside.

All honor to our President. He's got the old ship of state in his hands and is equal to any emergency.

The members of Congress, irrespective of party affiliations are ready to back the President in the event of war.

WHAT we said about sheep last fall, as much fun as was made of us, is proving true this spring. Sheep are worth just double what they were six months ago.

A proposition made here last Monday to consolidate two of our largest brick concerns has a significance. There is evidently business at the end of it.

The Kentucky Populists will hold a convention in Louisville in March to reorganize their party and protest against any more fusion with Democrats.

This country is not hankering for a fight, but by jingo, if we do, we've got the ships, we've got the money and we are able to clean up most any country that tackles us.

The Prison bill has passed the Legislature and those Republicans who are holding their place at the penitentiaries by appointment by the Governor will likely soon be relieved of their job.

We call the attention of our readers to the address of ex President Harrison, appearing in our supplement, which deals with a subject in which we are all interested. He handles it well and it will pay you to read it.

HARPER WEEKLY, a Republican organ since Mark Hanna up after this fashion "He is a very ordinary and very vulgar politician of the richest kind who has more faith in money than in discussion, in cupidity than conscience.

The last few days have been favorable to the farmer and for pitching his crop in these surroundings. They are making the best of it, too. All the farmer needs this year for big crops is a favorable season. He can and will do the work.

As to a war with Spain the Washington Post speaks thus patriotically of Uncle Sam: "Let us stand by the President! Let us uphold the dignity and honor of our flag! Let us keep this nation in the noble path in which the fathers guided her—the standard-bearer of a high and pure and splendid civilization!"

A resolution was introduced in Congress last Monday, asking an appropriation of fifty-million dollars for war expenses. This looks very much like there might be something in the war talk. The United States at least is making the necessary preparation in view of such an event. Spain it is certain anticipates war with us for they too, have been purchasing war ships. Just where the first out break may occur that will precipitate active hostilities is not known.

THERE were at least a hundred head of horses and mules in Brandenburg last Monday for sale. The town was alive with farmers eager to sell, but could find no purchasers. The trouble with our horses is, that they are not first class up to the standard, such as the eastern trade demands. Good saddle and harness horses are in demand and bring fancy prices, but there are very few of that kind in our country. Farmers must improve their horses if they wish to compete in the markets and obtain good prices.

BRANDENBURG was saved from total destruction by fire last Sunday by having a simple and easily constructed system of waterworks which a few enterprising citizens constructed there some years ago. But for these works the whole town would now be in ashes and thousands of dollars worth of property destroyed and many homeless people. This town will wake up some morning to find itself a pray to the fire fiend when it is overpassing too late. Something must be done and ought to be done and done quickly. A system of waterworks can be built here for \$5,000 or \$6,000 that will save the town in the case of one fire more than the amount invested in the plant. Will our citizens not wake up to their duty.

In twenty years we have not seen a suit in this court for breach of promise of marriage. Yet the law is still in force which reads: If a man of full age binds himself to marry a woman by a day named, he is responsible for the non-performance of his covenant, in an action for damages.

Captain Elijah Miller and Mrs. Jane Hook were married last Thursday at the bride's residence out in the colored settlement. The captain is one of the leading citizens in that locality. He followed Uncle Sam through the late unpleasantness, and while on the shady side of sixty is well provided for with a good stiff pension.

A CARD. Twenty years experience in the Master Commissioners' office has given me a clear insight into the manner of settling estates, mortgages, liens for purchase money and many other questions of a civil character. My observation and experience in all of these matters has been, that in them the most watchful and painstaking investigation is necessary for the success of litigants. I desire to give my entire time to the practice of law. I will spend two days in Cloverport each week, Tuesday and Wednesday, where I will have an office in the News building. All matters entrusted to me will receive careful and prompt attention. V. G. Babbage.

Several of our prominent citizens say that an adjuster should be summoned to see the noble, fine work done by the hose in the hands of the firemen last Sunday morning. Insurance rates would surely be decreased.

Last Sunday was so "springy" that we did not have to refer to a calendar to be convinced that winter had flown. A fine day to discard wraps! A fine day to don a pretty one if you had it! Such an accommodating season!

I am sorry to see V. G. Babbage has lost his office, but as it came about from politics, I cannot be surprised. "To the victor belong the spoils." I am glad to know our Meade county man, Gus Brown had the mantle to fall upon his shoulders.

A man by the name of Marston purporting to be a Baptist minister, lecturer here a few weeks ago on Palestine. He professed to have been lecturing and dividing proceeds with the church. Dr. Dowden called my attention to an article in the Recorder signed by two Baptist preachers in Indiana, stating Mr. Marston was not honest in his promises and wondering why churches did not require references or credentials' utter strangers.

At 2 o'clock Sunday morning fire was discovered in the third story of the St. Cloud Hotel. It was well under head way when the alarm was given and the flames were bursting through the roof in several places entire destruction seemed inevitable but the fire brigade with the hose soon reached the scene and it was almost a miracle to say the fire was extinguished and the building saved by the work of heroic men and boys. Had it not been for the hose and prompt and efficient work the whole street would have gone, as it is the St. Cloud so recently papered and painted is fearfully injured by fire and as much by the floods or water. The furniture and carpets were of course injured and destroyed. How the fire originated is not positively known. I have only heard rumors, but nothing authentic. Mr. Frakes lost his livery stable and most of its contents about two years ago. There was no insurance so the loss falls heavy on him, but he will repair immediately. A great deal of sympathy is extended.

Miss Helen Pollock, of Guston, came home with Miss Annie O'Bryan Sunday and remained until Monday.

Circumstances call me away from my home for quite awhile, and it is with regret that I bid adieu to the pleasant columns of the News. I have been treated mercifully and courteously by the editor, and I must praise particularly the talent of the young lady compositors for interpreting my badly written letters, and I hope to soon form the friendship of Bush the poet, for I admire his power of oratory.

David Henry, Jr., was in our town last week and bought a telephone "privilege" from Mr. Neff who owns the line from here to Garfield, via Irvington. \$3.00 the amount Mr. Henry paid entitles him to talk over the line whenever and wherever he pleases, \$7.50 purchases a private box in your dwelling, office or store and you way then talk at your pleasure.

Mrs. Chas. H. Drury, of near Bewleyville, received a telegram last week informing her of the death of her sister, who resided in Florida. Mr. Hoeker's remains were shipped home last Thursday for interment.

After years of untold suffering from piles, B. W. Parsell, of Kaintnersville, Pa., was cured by using a single box of De Witt's Witch Hazel Salve. Skin diseases such as eczema, rash, pimples, and obstinate sores are readily cured by this famous remedy.—Short & Haynes.

Get More and You Get Less

Why is it every sarsaparilla which tries to sell itself, ranges itself against Ayer's as the standard? Why is it that all have to offer extra inducements—bigger bottles, fancy wrappers, cheaper price—anything, everything, but the one inducement of quality?

Ayer's Sarsaparilla

has never been equaled by any cheap imitation of it, and quality tells, just as blood tells.

It is the Standard.

"I have sold Ayer's Sarsaparilla for more than twenty-five years, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. A preparation must possess great merit to maintain such a reputation. I believe your sarsaparilla to be the best blood purifier that has ever been introduced to the general public. I often hear other manufacturers say that this is 'as good as Ayer's,' but no one ever yet heard it said that Ayer's was 'as good' as any other kind. They always set Ayer's up as the standard of excellence."—S. F. Borce, Duluth, Minn.

It may be depended on that our Uncle Sam will do the right thing at the proper time. Cuba will be freed and our national honor will remain unscathed. So just retain your wire edge for the thick of the fight.

Farming has begun in earnest in this section. Oats sowing is the order of the day. More farmers are sowing grass and clover seed than usual, and orchard grass has a decided preference. Altogether agriculture has taken on unwanted life.
