That pump down at Vest's corner has been fixed nicely, and it is in nice working order. It is now to be hoped that a revival meeting will be started here soon so as to give the Christian gentlemen who have "cussed" out of church while that pump was out of fix, an opportunity to reform and come back to the fold. It should be remembered that that old pump down there has caused more sin and wickedness for the last two months than all the saloons in town.

If dull, spiritless and stupid; if your blood is thick and sluggish; if your appetite is capricious and uncertain, you need a Sarsaparilla. For best results take De Witt's—Sold by Short & Haynes, Cloverport, and Beard & Beeler, Hardinsburg.

The wash woman of Mrs. J. J. Dyer was so unfortunate as to forget her clothes and leave them hanging on the clothes line Monday night. The next morning all the valuable articles had disappeared as if by magic. It's singular how such things do happen.

We congratulate our neighbor and hope she has struck a sure enough bonanza.

DISTINGUISHED GUESTS.  
A Crowd of Louisville's Prominent Citizens Take in Cloverport.

The following prominent citizens of Louisville came down in a private car Monday and viewed the town and her industries:  
Messrs. J. C. Loomis, Phil. Bros., Samuel Booker, P. J. Woodbridge, Louis Sommers, John Doerffler, J. E. Hikes, G. K. Hikes, Col. C. F. Johnson, W. W. Smith, Henry J. Sommers, W. J. Abraham, Walter Frantz, Fred Horst, and Charles V. Mehler, City Engineer of Louisville; H. A. Bell, Sheriff of Jefferson county; Lade Joseph, City Attorney of Louisville; R. T. Burke, Assessor of Louisville; and W. B. Halderman, of the Courier-Journal.

The gentlemen are nearly all interested in the Acme brick works, but visited nearly every manufacturing establishment in the city. The great Acme, which has just been recently started, was running, and the distinguished visitors were agreeably surprised and well pleased with its immensity and perfect operation, and the praises and compliments that they heaped upon Mr. Alfred Morgan, the superintendent of the works, were both profuse and loud.  
This plant is the largest and best equipped brick manufacturing establishment in the United States, and when it is completed, it will probably surpass any other like establishment in the entire world.

They are just now finishing their third kiln, and they will not be done building until ten or fifteen have been completed. Incomplete and imperfect as they now are, they turned out 35,100 brick in nine hours Monday.  
When we get such people as the ones named above interested in Cloverport and her affairs there is no-doubting that we will prosper. They are wealthy men and universally known for their good and successful business qualifications. Our days of prosperity are just dawning, though we think we are great now.

Our guests left for Louisville on the 6 o'clock train, and Cloverport feels proud that she has had such distinguished callers.  
A SCRAP.  
Mayor Lightfoot and Charles May Come To Blows.

This little city was thrown into considerable excitement last Friday evening because of a fight between Mayor C. E. Lightfoot and Chas. May, a prominent citizen, in which Lightfoot received a couple of severe blows in the face and May was severely, but not dangerously, cut with a knife.  
From all reports, there has been a little difference between the two men for some time, and in talking the matter over down on the bridge, on the evening mentioned, it resulted in the fight.

May is a large man, while Lightfoot is small, but game. The knife used by Lightfoot was a small pocket knife, or the result might have been more serious. As it was, May was cut four times and stabbed three times, the wounds being on the thigh, hip and side. Mr. James Skillman happened to be near and he separated the belligerents before further damage could be done.  
The trial was set for yesterday, but May is not yet able to be out, and it did not come off.

Henry Winter. Wm. J. Winter. John M. Borntraeger  
"The Unkindest Cut Of All."

While we have not "cut any acquaintances" we have made another cut in our prices for this week which cuts off all profit. This is the kind of cut that cuts to the quick. We must stand it for awhile, however. Rather than carry over the goods till next season, we cheerfully make this sacrifice. Our friends and patrons in the city and surrounding country will miss an opportunity seldom presented if they fail to take advantage of this "ugly cut."

Our new Fall and Winter stock, which we are now manufacturing right here in Louisville, is fast coming in from our workmen and crowding us for room.

BET SHE'S FROM CLOVERPORT.  
From a Rockcastle Springs correspondent to the Louisville Sunday Truth we clip the following: There is a very fascinating auburn haired girl here, whose eyes are a study for a painter, and whose complexion and natural tints would put the fairest flower that ever bloomed to shame. With genial manners, magnificent physique, combined with great beauty of face and wonderful grace, this lady is unquestionably the wall flower of the springs. Yet it is a fair estimate to say that half the men at the springs are more or less in love with her. How I would love to tell this beautiful woman how to attract more attention and less admiration.
