On last Saturday afternoon two young ladies and their lady chaperone, of Holt, while returning home on horseback from town had quite an exciting encounter with a drunken man. When they came up with him and attempted to pass he decided that they mustn't, and to the horror of the young ladies produced a twelve inch butcher knife, with many a flourish of which he insisted on maintaining his claim to the entire road. Then organizing a line of march, he moved the company on and not until their homes were almost reached, and the knife had grown in size to fully twenty-four inches, did they finally by a mad rush for liberty succeed in extricating themselves from their perilous situation.

The Women Praise B. B. B.

The suffering of women certainly awakens the sympathy of every true philanthropist. Their best friend, however, is B. B. B. (Botanic Blood Balm). Send to Blood Balm Co., Atlanta, Ga., for free.

H. L. Cassidy, Kennesaw, Ga., writes: "Three bottles of B. B. B. cured my wife of scrofula."

Mrs. R. M. Laws, Zalala, Florida, writes: "I have never used anything equal to B. B. B."

Mrs. C. H. Gay, Rocky Mount, N. C., writes: "Not a day for 15 years was I free from headache. B. B. B. entirely relieved me. I feel like another person."

James W. Lancaster, Hawkinsville, Ga., writes: "My wife was in bad health for eight years. Five doctors and many patent medicines had done her no good. Six bottles of B. B. B. cured her."

Miss S. Tomlinson, Atlanta, Ga., says: "For years I suffered from rheumatism, caused by kidney trouble and indigestion. I was also feeble and nervous. B. B. B. relieved me at once, although several other medicines had failed."

Rev. J. M. Richardson, Clarkston, Ark., writes: "My wife suffered twelve years from rheumatism and female complaint. A lady member of my church had been cured by B. B. B. She persuaded my wife to try it, who now says there is nothing like B. B. B., as it quickly gave her relief."

He Received a Message from the Express.

Christopher Gould, the assistant dispatcher of the Philadelphia and Reading railroad, who resides at 609 North street, Harrisburg, last Wednesday received \$15,000 from the Louisiana State Lottery. He held one twentieth of ticket No. 8174, which drew the first capital prize of \$300,000, in the drawing of the 10th inst. In a personal interview with the gentleman, he informed us that the first ticket he ever purchased was about four months ago, and that \$8 was all he had invested in it. — Steelton, (Pa.) Advocate, Sept. 27.

Messrs. Reynolds & Dooley are putting down a well for the Meade County Gas Co. at Paynesville.

Mr. John Hall returned to Kansas City, last week, accompanied by Elvira Wimp to try the turf of the West.

The Ohio River Gas Company struck a fine flow of gas in a well put down last week four miles below town.

Mrs. Lou Moremen, Mrs. J. A. McGee and Mr. J. W. Richardson, who have been sick for some weeks are thought to be some better at this writing.

There is some talk of piping the gas in the Brandenburg gas wells around on the streets. Why not pipe the water from the tan-yard spring right along with it?

The hunters of Louisville have been infected by our county with their pop guns and canines for the past week or so. From what I learn of them they don't carry much game back with them, except what they buy or hire some of the natives to kill for them. Let every farmer post his land and keep those pests from scaring the poor birds.

The apple crop is about all shipped out. It is roughly estimated that the crop in this county this year sold for \$150,000. At Concordia, for two months, they shipped from 400 to 600 barrels a day. They say that some farmers in that section sold their crop of apples for more than their places originally cost. It would be profitable for some one to put up a distillery in this section to use up the refuse apples. There will be a great many orchards set out this fall and next spring.

Death of An Old Citizen.

Mr. Wm. Tinius died at his home near this city, Wednesday, October 30th, 1889.

The deceased was the son of Charles and Louisa Tinius, and was born in Germany, June 15th, 1838, and was therefore in his fifty-second year at the time of his death.

He was married December 23rd, 1860 to Miss Mary E. Clark, by whom he leaves nine children. They are Miss Annie, Josephine, Maggie, Lorena, Rosa and Emma, and Jesse, Herbert and Henry. About 15 years ago he embraced religion, connecting himself with the Baptist church, of which he has ever been a consistent and useful member until his death.

To all of our many friends who bestowed such great kindness in assisting us in our father's, Wm. Tinius, last illness, please accept our heartfelt thanks.

His Family.

The best salve in the world for cuts, bruises, sore throats, sore eyes, sore feet, sore hands, chapped hands, chilblains, corns, and all skin eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by G. W. Short, Cloverport, Ky., and J. A. Witt, Hardinsburg, Ky.

The Democratic Primary.

The primary election last Saturday was probably the largest ever held in the county. There were twenty-four candidates all told, and the fight for the nomination was warm and spirited. It was a good natured family fight and the boys that got left are a little disfigured and a little sore from a hard fought battle, but they are not kicking and will be found rallying around the nominees in August next. We cannot give the official vote, but enough has been heard to settle the question as to who the nominees are. The following is the list: For County Judge, Thea. Adkisson; for County Attorney, Judge Milton Beard; for County Clerk, J. E. Monarch; for Sheriff, J. S. DeJernette; for Superintendent of Common Schools, Jas. W. Miller; for Jailor, John Stator; for Assessor Lou Cashman; for Surveyor, F. M. C. Jolly, and for Coroner, W. R. Pendleton.

The Greatest Ladies' Man on the Bench.

Judge T. R. McBeath, of Leitchfield, is spending a few days at Alexander's Hotel. He is probably the handsomest man in his district, and is the greatest ladies' man on the Circuit bench in the State. Next his preference is for the passing show, and he seldom misses anything that passes along. Wherever Judge McBeath may be holding court he finds time, especially in river towns, to visit the show boats. He is fond of pleasure and of the good things of life, but has an enviable record on the bench and is one of the Judges whose decisions always stand with the Superior Courts. — Courier-Journal.

LADIES

Needing a tonic, or children that want building up, should take BROWN'S IRON BITTERS. It is pleasant to take, cures Malaria, Indigestion, and Biliousness. All druggists keep it.

Don't Be Fooled!

Because the "weather clerk" has made a mistake and turned on a warm current. He will correct the weather mighty soon, and then the wild West wind will blow through your whiskers and play hide and seek up and down your spinal column. Don't think you are going to be allowed to wear your summer suit and your linen duster all winter, for the "goose bone" has spoken! We place in stock today 300 more of those elegant Drap Kersey Overcoats, with and without satin-lining—the handsomest and cheapest Overcoat in town. Call early, as we expect a rush. We have also made up another line of Cutaway, Frock and Sack Suits, in handsome patterns, which are to be sold at a very popular price, with a guarantee attached. Our stock is very complete, and includes Suits and Overcoats from the cheapest to the finest.

The County Press.

If, in its discussion of public questions, Home and Farm has had any influence on the farming community, it must be evident to our readers that the political reforms required to preserve to the farmers themselves their share of the products will come not so much from the success of one party or the other, as from a more intelligent conception of the difficulties with which in this life we have to deal, and a belief that these difficulties can only be met by a spread of intelligence and general morality. Most of us, in fact, are in the dark in regard to many questions, and only observation and experience will enlighten us.

One of the helps to such enlightenment is found in the county press. The county newspaper should be the chief ally of the agriculturist. If it is not so, it is because neither the press nor the farmer understand their relations to each other. We do not pretend that the county newspaper is all that it should be, but we believe that it is all that it can well be when we consider the support which it receives. The reply is that if it were better it would receive more material support from the farmers. But suppose the farmers themselves try the effect of furnishing the support in advance and see what the result will be upon the newspaper. In many counties throughout the South and west the most effective exponent of right ideas, of proper living, of justice and morality is the county paper, a credit to the man who makes it and to the men who support it. These newspapers can be multiplied many times and their influence upon public affairs will increase in just proportion as their support increases and their condition improves.

We trust, therefore, that our readers will see it that the county press has better support in the future than it has had in the past. We are glad always to receive subscriptions made in combined efforts of Home and Farm with the county papers. Hundreds of newspapers throughout the South and west, having necessarily only a local circulation, made a combined effort of Home and Farm, furnishing both papers at a little more than the cost of one. By this combination the farmer can get his county paper and Home and Farm for a very small sum, in some cases only \$1 or \$1.25, \$1.50, or \$1.75, in any case a great deal of reading matter for very little money. We wish we could receive through these combined efforts 25,000 subscribers this year. We are confident the good effect would not be confined to Home and Farm, but that the community which Home and Farm aims to serve most faithfully would receive benefit ten-fold as great as that which would come to us. We trust our readers will give their local paper as liberal support as they can afford. —Home and Farm.

Monthly Crop Report.

OFFICE OF COMMISSIONER OF AGRICULTURE, HORTICULTURE AND STATISTICS, FRANKFORT, KY., Nov. 1, 1889.

In my report of October 10, 1889, I gave the general condition of all the Kentucky crops, the most of which had been gathered, and were safe from ordinary disaster.

WHEAT. The fall seeding of wheat began September 10th, and progressed without interruption until completed. This season has been remarkably favorable for the preparation of the seed bed, the soil being well broken and thoroughly pulverized. Seeding was delayed in some sections for want of moisture. On the 21st of October we had a good general rain, and the wheat is now all up and never looked more favorable. The acreage of 1889 is about 10 per cent. increase over 1888. The only hindrance has been the extraordinary amount of weeds and filth on the ground which has compelled many farmers to broadcast instead of drilling.

TOBACCO. This crop is now safely housed, and is free from future danger by reason of weather conditions. In the Dark tobacco sections of the State careful estimates place the damage by frost on the hill at \$4 per cent., with considerable damage from barn-freezing. In the Barley counties the damage from frost was comparatively light, not exceeding two per cent. The reason of this difference is the fact that the Barley matured earlier and most of it had been housed before the frost.

We have been unable to get the percentage of damage by barn freezing, in either section of the State, but all tobacco that was green and in open barns at the time of the freeze, is more or less injured. From careful inquiry the average yield of tobacco per acre, in the State in '89, was 778 lbs.

The acreage of Barley tobacco is about 10 per cent. more than the acreage of dark that is, the Barley acreage is about 68 per cent. of the '88 acreage and the Dark about 56 per cent. of '88, making a total aggregate in '89 of 62 per cent. of the '88 acreage.

From the correspondents we gather the following as to the yield, per acre, of the crops mentioned: Corn, bushels per acre..... 25 Irish potatoes, bushels per acre..... 93 Sweet potatoes, bushels per acre..... 85 Tobacco, pounds per acre..... 778 Hay, tons per acre..... 13 Sorghum molasses, gallons per acre..... 115 Wheat, bushels per acre..... 125

No other crop reports will be made during the winter, except as to the condition of wheat. Very respectfully, CHAR. Y. WILSON, Commissioner of Agriculture.
