Remember Irvington College will open the second Monday in October. It is impossible for you to go there now, nothing prevents you from accepting such opportunities as are offered there, just as soon as possible. Make everything bend to the one purpose, to so arrange your affairs as to enable you to attend that school. What you get there will be substantial and useful to you throughout life, it matters not what are your expectations. The education given there is solid and useful, not superficial and for show.

Mrs. Brewer's Humane Work.

A well-to-do Rhode Island lady, who looks after the sick of her city, writes to Dr. Hartman of her practical experience with Pe-ru-na.

Humanity is blessed with some good Samaritans. Mrs. Lizzie M. Brewer, of 196 High St., Westerly, R. I., is a noble woman who devotes a great deal of time and money to caring for the sick of Westerly. She has been for several years one of Pe-ru-na's strongest friends, and under date of March 17, 1898, she writes the following letter to Dr. Hartman, Columbus, O., the originator of Pe-ru-na.

Your welcome advice is at hand, and my gratitude is unbounded for the privilege I enjoy of consulting so renowned a physician as yourself, always receiving such prompt and satisfactory replies to my questions. And what amazes me most is that this can be done year after year, with unfailing certainty, free of charge. I have learned that you have become to thousands and thousands of households the same beneficent guide and adviser that you are to my household.

As for your free books, I read them every one, and treasure their contents as the choicest wisdom I have used Pe-ru-na in my family for over four years. I find it a sure cure for all catarrhal affections so common in this part of the country. It cures a cold at once; there is no other remedy that can at all compare with Pe-ru-na; as for la grippe there is no other remedy that can at all compare with Pe-ru-na. I notice in medical journals and from the testimony of my neighbors that the doctors seem quite unsuccessful in treating la grippe, especially in removing the after effects of la grippe. From personal observation in many cases I know that Pe-ru-na is a sure specific for these cases. I am among the sick a great deal in our city, and have supplied many invalids with Pe-ru-na, simply because I am enthusiastic in my faith as to its results. I have never known it to fail to quickly and permanently remove that demoralized state of the human system which follows la grippe.

In cases of weakness peculiar to my sex I am sure that no other remedy can approach in good results the action of Pe-ru-na. It restores and symptoms to which females are subject. The irregularities and nervousness, the debility and misery, which afflict more or less the women from girlhood to change of life, are one and all met and overcome by your excellent Pe-ru-na. I wish every young lady in our city could read your book "Health and Beauty." Any one wishing to inquire of me further can do so by enclosing a stamp for reply.

Watkins, who has been quite ill, at his home at Coral Hill, Barren county, Ky., has returned home. Among those who attended the meeting of the Goshen Baptist Association at Sand Hill last week were Frank French and R. F. Thornton, of Grand View, Ind. Cornelius Burk, of the First United States cavalry who has been home on a thirty days furlough, returned to camp Wickoff at Montank Point, N. Y. yesterday.

Will Buy Machines. The good road fever has struck Hancock county. The work accomplished by the News and by our own county officials in Breckenridge has been an object lesson to the people of Hancock county and now the magistrates are talking about buying road working machines in order to start in on a good road campaign.

Basket Lines Opened. The trouble between the operator and the miners of Baskett mines has been settled. Mr. Blair, the manager of the mines, had been very liberal with his men and had signed the scale of prices for the ensuing year. The miners went out without any grievances but their return to work ends the trouble in this section of the mining district.

What Shall Be Done

FOR THE DELICATE GIRL. You have tried iron and other tonics. But she keeps pale and thin. Her sallow complexion worries you. Perhaps she has a little hacking cough also. Her head aches; and she cannot study. Give her

Scott's Emulsion

The oil will feed her wasting body; the glycerine will soothe her cough, and the hypophosphites will give new power and vigor to her nerves and brain. Never say you "cannot take cod-liver oil" until you have tried Scott's Emulsion. You will be obliged to change your opinion at once. Children especially become very fond of it; and infants do not know when it is added to their food.
