SIX PAGES.

THE paid admissions to the World's Fair during four months have been over 10,000,000.

WHEN it comes to taking a round on the turf Gross is somewhat of a hustler himself.

THE victory of Jack Gross means victory for the Democratic party in more ways than one.

Now that the canvass is over let's get down to business and every Democrat stand shoulder to shoulder.

THE Republicans may put out a man for the State Senate, but you are not going to hear anything from the "Third Party."

THE printing business, like all other business, is feeling the hard times. When a streak of economy strikes a man the first thing he strikes is his paper or his ad.

HARDINSBURG is getting ready to entertain the Methodist Conference. If there is anything that Hardinsburg knows how to do better than another it is to entertain a Methodist Conference.

IF you owe your merchant or your printer make some effort to pay him. If you can't pay all pay what you can. Keep what little money you have going, and you'll do your part to drive off the hard times.

DON'T hoard your money. If you have no use for it deposit it in your bank or loan it to some good man. Drawing it out of your bank and sticking it down in your stocking is the main cause of these hard times. Keep your money moving.

THE NEWS comes out of the fight bearing no ill will or bad feeling to any one. This was a little sort of a rough and tumble family fight that will happen occasionally. We went our length for Gen. Gross and he has won. He didn't have a walk-over though, for Richardson was close after him all along the line.

MR. W. J. Sherman, who is here on a visit with his wife, is spending his leisure hours estimating the cost of water works for this city. He says a first-class plant with a good service, covering the whole city, can be put in for $16,000. What the people ought to do is to form a stock company and put in this plant. Mr. Sherman is a practical engineer, has built several plants and knows his business. If the people want water works, and they certainly do, there is no better time than right now to build them. Labor is cheap, material is low and everything is favorable to their cheap construction. This town is absolutely at the mercy of the flames. A fire in the business portion of the town would ruin all of us. Why not do something now, before it is everlastingly too late. The same fate will overtake us that overtook Derby not long ago. We say build them and do it at once.

THE Senatorial primary just closed in this District has been the hardest fought and one of the most heated contests in the State. The prominence of General Gross, and his relation to State affairs, had something to do with it, and the position he took in the canvass served to excite an interest in its results far beyond the borders of his own district. He did not know when he entered the race the effect his annunciations as to choosing a United States Senator would have among the people. He felt, however, as he always talked about it, that something was due the people in Western Kentucky. This was not actuated by any selfish motive, but it is rather in keeping with Mr. Gross' feelings and sentiments in public matters. He has always been a home man, and done much for his home people. In this instance he appeared to recognize an opportunity where he could possibly serve them still more and his services were tendered. The verdict last Saturday was that the people accept him and will rely upon him to fulfill, as best he can, every pledge he has made to them.

MR. Cleveland has returned to Washington. He has had a long summer vacation. Conflicting reports have gone abroad as to the state of the President's health. A great many have contended that he has been quite a sick man, while some have denied the statement. Be that as it may, however, he is now at his post of duty and the wheels of the administration will begin to move with increased celerity. Nothing has been done at Washington for six weeks in the way of removals, the financial question having absorbed the principal part of public attention. The Democrats, however, are largely interested in the offices, and removals have not been half so rapid as they should have been. At a number of places in the South some of the best offices are still held by Republicans and if President Cleveland don't proceed at once to fill their places with Democrats he will be criticised severely. During Mr. Cleveland's former administration one of the main objections to his course in office was that he did not recognize the claims of Democrats. Truly this is a serious matter among those interested. If Mr. Cleveland can find men in his own party, and he doubtless can, who are qualified for the offices at his disposal, he shouldn't hesitate to unseat Republicans and begin the work early.

THE Hon. Gus Richardson was the city yesterday "investigating" with an eye to contesting the election. Our advice to Gus is that he go home, rest up and think over the matter seriously before he decides to do such a thing. He was beaten fairly and it will do him no good to kick now.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Jolly Meador is adding a new addition to the house he bought of Dr. Kincheloe. The carpenters began work on it last Monday. Railroad street is the most popular thoroughfare in town and the price of property there is going up every day.

Now that the conventions and primaries are over let's settle down to business. The people want a rest from candidates. They can't always be annoyed with some fellow wanting a little office. We've got to make a living in this country and from the forecast of the weather, and the situation of the times some fellows are going to be pushed to do it.

Not As Bad As You Heard It Was.

Business has been dull, but it is improving. Banks have closed, but they are reopening. Factories and mills have shut down but they are starting up again. Times have been hard, but they might have been harder. Things are really not as bad as the pessimists have painted them, nor quite as good as the optimists would have them. Altogether the United States are a long way from the poor-house, and if the people will "get a hustle" on themselves, there may be Christmas gifts enough to go all 'round, and we'll be happy yet, you bet.—Owensboro Messenger.

Little Alliene Woodson, infant daughter of Mr. and Mrs H. C. Woodson, after weeks of suffering passed from life to her Heavenly home last Monday. All the peace and favor of the world cannot calm a troubled heart; but where the peace is which God gives all the trouble and disquiet of the world cannot disturb it. "Underneath are the everlasting arms." No child of His was ever permitted to fall lower than God's "underneath." This peace little Alliene's parents have long since sought and in it have found comfort for their stricken hearts. Only those who have given up their precious babes know the anguish of these parents, who have the sympathy of the entire community in their bereavement.

On Wednesday, August 30th, at 11:30 o'clock, p. m., Miss Maggie Dowdy, daughter of Mrs. E. Dowdy, died of flux. Maggie had only been sick a few days and seriously ill for such a very short time that her death was a severe shock to the community generally. The deceased was born at the old homestead where she died, and with the exception of a few years in Louisville has spent her life with this people. At an early age she connected herself with the Methodist church South, of which she has been a most zealous member, heeding every call and obeying each demand cheerfully and willingly. For years in the Sunday-school she has had charge of a class of young ladies, to whom she imparted the same religious earnestness that pervaded her own mind and with them she accomplished untold good for the church, the minister in charge and his family. The fence around the church stands as a monument to her memory; the "Aid socials" will ever cherish dear Maggie as one who guided and aided in every undertaking; the children at Sunday-school will always miss her smiling presence and her words of cheer. How anxious she had been to see the church repaired! But the Church triumphant has claimed her, while the Church militant sadly mourns her loss. She was a stay, a solace to her feeble, widowed mother, and a companion to her only sister. Strange that our kind Father took Maggie from them? To human understanding it is passing strange and mysterious; but every stroke—could we see it—is "garlanded with beauty," and by and by dear Mrs. Dowdy, dear Hallie, when your feet touch the other shore and when you clasp hands with your dear Maggie the great scroll will unroll and "we shall all know as we are known." To those dear ones and to Mrs. Abraham Ditto, who has been a devoted sister in attention, our hearts go out. Bro Kiser preached the funeral, which was attended by the Sunday-school en masse, and by a large concourse of friends, which attested their esteem and regard.

FOR CHRISTIANS.

The man who is trying to walk in the foot steps of Jesus will never walk into a bar room by mistake. Remember that.

If the Ohio River was "bank full of the soap suds of salvation with a June rise of Piety," ahead it would not wash the feet of the dirty, low down, mean contemptable hypocrits and good for nothing men that the churches of to-day are cursed with. Do you understand, get right or get out.

Why not act like sensible men and not like children in regard to these great questions. Just watch a dog and when you see him scratching himself he has either got the mange or something is eating on him, he don't scratch just for the fun of it. Now who is willing to let a dog get ahead of him. You see we have two kinds of dogs, one kind with four feet and a long tail another with two feet and with the caudel extremity rather shorter than the other dog. Do you understand? Either kind can kill sheep.

We want to see that sentiment cultivated that will make it as unpopular for a man to take a drink of whisky as it does for a man to steal a sheep. If christians will go to work right they can do this. First, prove by their walk and conversation that there is a reality in religion of Jesus Christ and then their influence will be felt to that extent that this sentiment will prevail.

We are in favor of taxing a man that drinks whisky, beer or any thing containing alcohol fifty dollars a year for the privilege of so doing and compel him to wear a badge where it can at all times be seen with his name inscribed thereon and number; the same to be recorded in the county clerk's office in which he obtains the license. This would be nothing but honest and fair and the man who is not willing to be honest ought to be on the rock pile with a ball and chain to his leg. Now if anybody can make anything else out of this with all the help the Devil can give them they are welcome to the job. The road is open for any one to twist this mules tail that will undertake the job but we advise you to say your prayers first.

What would you think of a man that would let any one keep him from going to church and enjoying his religion? if you was to see him holding his nose when he met a pole cat, we think it would be an insult to the pole cat, what do you think about it? or are you one of that kind.

Eveleigh Has a Sensation.

Quite a sensation has been stirring the citizens to a fever heat over near Eveleigh on Rough Creek. It appears that John W. Glasscock who has two wives, one divorced and the other not, has been courting a Miss Cissie Tucker, daughter of Hense Tucker, and not meeting with the happy endorsement of the girl's father, Glasscock took the girl away last Monday under the pretense of securing her a place to stay until he should have time to secure a divorce from his present wife, when he would marry her. Several parties including the irate parent started in pursuit of him and here our informant's knowledge of the affair ended. As Glasscock was about thirty years old and the girl only seventeen, he is severely condemned by all the neighborhood.—Grayson Gazette.
